### Finnair A350 Sky Shopping Adds Ivana Helsinki

Finnair is opening an Ivana Helsinki clothing shop in its Nordic Sky WiFi portal onboard its A350. Founded in 1998 by designer Paola Suhonen and her sister Pirjo Suhonen, Ivana Helsinki is an independent art, fashion and cinema brand based in Helsinki. The collection is directly accessible on any handheld devices or laptops connected to the Nordic Sky WiFi portal with no additional fees.

Ivana Helsinki is the second sky shop on the portal, following the addition of the Makia Clothing cooperation in February. All passengers in both classes on A350 flights can use the portal with their own devices free of charge.
