Winter Carnaval in Quebec City, Canada

From the [Hilton Quebec City](#), especially rooms that end in -16 on the highest floors, the views of the city are spectacular. They are even more interesting for those visiting during [Winter Carnaval](#), where the life-size ice carvings, festival activities, and parade action are all visible from your room. The best part is that the frigid night parades can be enjoyed from the comfort and warmth of your guest room (that is, if you know which rooms to ask for!).
